

Efforts underway to bring high speed service to Navajo Nation

Written by Staff Reports

Friday, 14 February 2020 08:07

Survey available on web, paper

The Navajo Nation understands the need for high-speed broadband and cellular services and is undertaking a study to find the best methods to bring this service to the residents and businesses in the Nation.

The Navajo Nation asks residents and businesses to fill out two surveys; a broadband survey and a cellular survey to address high-speed broadband, internet and cellular service needs.

The broadband Internet survey can be accessed via the web at: surveygizmo.com/s3/5343884/Navajo-Nation-Broadband-Survey
and the Cellular survey can be accessed via the web at:
surveygizmo.com/s3/5344376/Navajo-Nation-Cellular-Survey

For those residents and businesses that do not have broadband internet access or do not possess a smart cellular phone at your home or business, please stop by your local Chapter House and fill out a paper survey.
