Attention all providers,

Please read the newly implemented testing guidelines/instructions below for Lovelace Women's Hospital. If you have any questions in regards to these, please direct them to the Command Center @ [REDACTED]

1. If any patient presents within the following high risk classifications, the patient will need to have a COVID 19 test obtained upon admission:
 - a. Native American Reservation/ Pueblo/Navajo Nation
 - b. SNF, Rehab Centers, Nursing Homes, Long Term Acute Care Hospital
 - c. Dialysis Patients
2. If any of the above patients have had a negative COVID 19 test 7 days prior to admission, an additional C-19 test will need to be conducted during the admission process. This is due to the incubation period of the virus.
3. Appropriate COVID 19 isolation precautions are to be implemented for any of the above listed patients.

Thank you for all that you do,
