

This year I'm thankful that Nicole Lujan, Behavioral Health Coordinator, and Dr. Wei pushed for us to take on the Wellness Hotel. We helped many individuals at high risk for COVID and facing homelessness. We worked nights and weekends, but it was worth it. I remember around Christmas, we went and sang Christmas carols to the residents and gave gifts to the kids. It was very humbling. Our work from the Wellness Hotel led to the purchase of the Lexington. I feel very blessed to work with such amazing people. Thank you, Dr. Wei, Dr. Lozado, Ethan, Judy, and others. I'm really thankful for Nicole, her willingness to help others and her love for this

community is amazing. I'm also thankful for my family, the Lujans, and those who voted for Lolee Lynn. She won the Halloween Costume Contest.
