

On Friday evening, the Sun in Scorpio forms a square with the Moon in Aquarius. Examine your actions. As you head towards All Hollow's Eve, when the veil is thinnest, reflect on your rebirth. Consider Scorpio's higher symbol, the Phoenix, as the ultimate symbol for transformation. The Phoenix is reborn from the ashes. How will you be reborn? Madame G says: Happy Halloween!

Aries (March 21-April 19)

Discovered anything new lately? If you haven't, then now is the time to search out the answers to some underlying mystery. If you've landed on a doozy, you know it's the right time to search out the answers. You may be surprised by the results. Consider seeking out an untried path. You don't always have to imagine a paperclip as a holder of papers—maybe it's a lock pick.

Taurus (April 20-May 20)

What's the purpose of a symbol? It's the ideal for better or worse. It may represent the purest evil or good. Consider what symbols play out in your mind. Find the ones that will support your lifestyle and push you towards greatness. Beware of the danger of idolization. You may never reach perfection, but you may come close to your ideal. Look for the good and you will find it.

Gemini (May 21-June 20)

How can you achieve your dreams? You won't achieve a thing by sitting on the couch. You can't keep wishing on an unknown star. If you want the heavens, you must build a rocket. Take a moment to dream. What is your ideal life? What seems impossibly scary? Do that! In order to live fuller, freer, and better, you must take a risk on yourself. You'll amaze yourself. GO!

Cancer (June 21-July 22)

Who knew this could be you? If you find that you're impressing yourself and finally shooting towards the ultimate form of yourself—way to go! Keep going! Don't give up or get too bogged down in details. You may have a million and one other ideas, but only you know how far to reach and how much longer you need to push to get there. It's up to you and only you.

Leo (July 23-Aug. 22)

What's in a star? Is it merely a ball of light millions of years away or is it the center of our Universe? Often how we see the world is dictated to by our own experiences, trials, and errors. If you find that your world is shrinking, move forward and expand by taking in the sites and doing what you've always wanted to do. It's never too late to live the life you've always wanted.

Virgo (Aug. 23-Sept. 22)

Where will you go from here? What will you do? This isn't the end of an era—it's the beginning of a new one. You have the patience skill and power to live as you've always wanted. You can be anything you want. But, if you want to be happy it's wise to choose happiness in the here and now. There is no future happiness—there is only now.

Libra (Sept. 23-Oct.22)

Are your intentions pure? You may believe the world is working against you. Is it? Perhaps others merely see through your shiny veneer. You may need to stop and consider your actions and how you live in the world. The body doesn't lie. If your heart isn't pure others will quickly see through the façade and you won't accomplish your goals. Reconsider your actions.

Scorpio (Oct. 23-Nov. 21)

Your highest spiritual symbol is the Phoenix. Now is the time for renewal. They say a woman who cuts her hair is about to change her life. A Scorpio who envisions the Phoenix will undergo a transformation. You have the choice to react out of fear and live in the depths with the lower forms, such as a scorpion. But, as you become more yourself—you will return from the ashes.

Sagittarius (Nov. 22-Dec. 21)

What's your purpose? If this is what you want out of life, you may very well be satisfied. But, if this isn't the life you've always imagined, you may soon discover issues with your health. Consider your actions for they do have consequences. Don't get stuck in the muck. Take a look at your living situation and break from the mold of lost dreams. Now is the time.

Capricorn (Dec. 22-Jan. 19)

How do you live? This should be the question foremost on your mind. Are you happy? If not, why not? You have no one to blame for unhappiness except yourself. You may believe that "if" something happens you'll be happy such as "if you win the lottery." If you get that thing you've always wanted. This is a lie. You'll never be happy until you chose happiness right now!

Aquarius (Jan. 20-Feb. 18)

What's in your heart? You must test yourself. Courage is more than just a feeling it's an action. You have courage when you get up and speak your truth even if your voice shakes. If you live with anxiety like Piglet from Winnie the Pooh, you're stronger than those who don't speak up. The one regret you'll ever have is not taking action when you felt you should.

Pisces (Feb. 19-March 20)
