

On April 29, the Moon will enter Scorpio while the Sun is in Taurus. You may notice shifting of the familiar—this may cause disruption. Scorpio’s influence will promote change while Taurus will ensure smooth sailing. Madame G recommends that you begin unpacking and cleaning out your closet. Set aside time for Spring Cleaning and be ready for all new changes to come.

Aries (March 21-April 19)

If at first you don’t succeed, try, try again. This is true in all things. Although you must learn to use your head, you can’t just rush headlong into a brick wall. Instead of being too “pushy” rethink your strategy. Your goals may be worthy. Your attention might be admirable. But if you continue on this route you may need to pull out the map—or get better tires. Good luck!

Taurus (April 20-May 20)

Change is good. But you don’t need to change for the sake of it. In fact, continuing along the same path may be very fulfilling. You might be perfectly happy. And there may be a perfectly good way of managing something without drastically changing the direction of the river. You may want to consider that some incremental change is positive. It’s all good—just let it flow.

Gemini (May 21-June 20)

So, you’re heading out on a path and you’re not sure where it’s headed. Instead of making faces at the bus driver or mooning the passengers along the interstate, try looking within. You have the answers contained in your own heart and mind. As human beings, we really benefit from the company of others. This means that we benefit from solitude as well. Enjoy and live it up!

Cancer (June 21-July 22)

You're a mischief maker extraordinaire. The Weasleys have nothing on you. But you're not afraid of a little serious discussion, especially if it's something that's very interesting to you. Your interests run the gamut and there are lots of things distracting you. Instead of making a huge leap towards the next "BIG" thing, hang out and get some perspective. You've got this.

Leo (July 23-Aug. 22)

You're a rebel without a cause. If the world doesn't appreciate your talents, that's okay. Who needs em'? But, it's important to remember that you're not the only one who can have a say. Your friends have a right to how they feel. If you find yourself saying: "they just don't get it," consider this: maybe you don't get it. Allow others to have their opinions and you have yours.

Virgo (Aug. 23-Sept. 22)

What's the rush? You may be heading towards the mountains at a rapid pace, and that's great. But you may need to slow down the rush towards glory. Too much of anything is bad, even if it's a good thing. Take time for yourself and don't underestimate yourself. You may also want to consider your limitations. You are, after all, only human. This is not a personal failing.

Libra (Sept. 23-Oct.22)

The world is not your personal bank account. People are not your minions. You may have found resistance to your personal vendetta for fame and glory. If this is the case, slow down and reconsider. You may get your way, but at what cost? You capture more flies with honey than vinegar. This means that your approach might just be way off base. Try again—and maybe again.

Scorpio (Oct. 23-Nov. 21)

You control nothing. All you really have in the palm of your hands is your own behavior. So, if you're considering a career/job change or something else entirely, improve yourself. Take time to learn about your weaknesses and start gaining the skills and knowledge that you want. Take time out to reflect on what you can do to improve yourself and take the necessary action. GO!

Sagittarius (Nov. 22-Dec. 21)

Love is eternal, if you allow it to be. Sometimes it's easy to take the easy road and just go on down the path of least resistance. Instead, take time for your loved ones and show them how much you care. As one of the fiercely independent signs, you more than many others have emotions that run deep. Your loved ones need to see the fire in your eyes at times.

Capricorn (Dec. 22-Jan. 19)

Dear Capricorn, get it together. Sheesh! You really take each criticism to heart, don't you? Did you know that can be a failing? Don't feel worse Capricorn, with a kind and honest heart, it's easy to allow the nastiness of others to sink into your soul. Fear not! Take a long walk outside and enjoy the spring air. Enjoy a cup of tea with friends. Eat, drink, and be merry...

Aquarius (Jan. 20-Feb. 18)

Well, that escalated quickly! But you don't have to take my word for it. Try getting back up on the four-wheeler and riding off into the sunset. (You may use a horse, if that's preferable). Whatever the case, you need to get up and dust the dust off because you're so close. Don't give up, just keep on trucking and you'll get there. Life has no guarantees. Try again.

Pisces (Feb. 19-March 20)

You think you've found the answer over here, but maybe it's over there. If you've found that you have no focus on true purpose in your life. Take a good hard look in the mirror. Do you like what you see? If not, that's on you. If you do, well great! Good job! But, you can't keep blaming others for your problems. How old are you? Blame games don't look good on you. Nope!
