All is fair in love and war. On June 6, prepare for the Last Quarter Moon. You may have felt the effects of a rather sudden onslaught of emotions. You may feel a little beat up about it. Madame G recommends that you take stock and let go of everything holding you back. It's never too early or too late to live the life of your dreams and be who you've always wanted to be. Stay strong!

Aries (March 21-April 19)

Everything changes for a reason. Stop worrying about. The only time you really fail is when you no longer try. It's better to keep yourself moving forward even if it's only inch by inch. You have made headway and you've gained so much triumph. So face the day head on! March straight towards your destiny and never falter. You've got this. GO!

Taurus (April 20-May 20)

This may seem like the toughest spot you've ever been in. But, you've got it all worked out. Don't worry yourself, or over overtax your mind. You can do this with your eyes closed. The things you must look out for are the underrated and understated. Don't forget that everyone has hidden talents and shadows. Perhaps you need to recruit a few friends to the cause. Get going.

Gemini (May 21-June 20)

The time to tackle the unknown is now! Don't wait for your life to be over or for the timing to be perfect. Madame G has a few pieces of advice—it's never the perfect time. However, there is a balance. You've done your due diligence, worked and thought about everything you need to do. You've done all the preliminary stuff now all you must do is get it done. Good luck!

Cancer (June 21-July 22)

Keep going and never ever stop. You think this is the end, but is most definitely not. You can only move forward one step at a time. Don't worry if the other people are doing it. They may have put in the work at a later date. Now is your time. Don't regret or over think about if this is right or wrong—it's simply your time. NOW!

Leo (July 23-Aug. 22)

What can you do except enjoy your life and do what you can? There is no reason to change the hearts and minds of those around. All you must do is focus on what you can do to make the world a better place, one person at a time. You have all it takes to provide joy and fulfillment to those around you. Never regret who you are—it's a beautiful thing.

Virgo (Aug. 23-Sept. 22)

This life is full of beautiful things and tragic ones. Don't let the bad drive you down. Put it into perspective. You're a beautiful and sensitive soul. You can do more than you've ever imagined. So just dust yourself off and tackle the things that need to change. Put a brave face on when you need it, but confide in your friends and family. You're loved.

Libra (Sept. 23-Oct.22)

What will they think of next? You can do this with your eyes closed and your mind shut down. But, your team needs you to stand up and show you care. This doesn't need to be with some grand gesture, but you can at least let them know they're capable of more than they imagine or even you think they are. All they need is a little boost of confidence that only you can give.

Scorpio (Oct. 23-Nov. 21)

The anxiety stops here! It's interfered with enough of your life. You can do so much more when you let yourself go. Rigid control has its perks, but you are the leader of your own destiny. Stop waiting for the right time and take action now. You can do so much more than you ever imagined. This isn't over. This isn't the end. You're ready just do it! Fly free!

Sagittarius (Nov. 22-Dec. 21)

Love is not a bargain. It's a promise. If you've ever loved someone, you know that you've promised to protect their heart even from yourself. It's in your safe keeping or it should be. If you're not doing this, you're breaking the love promise. You've got this. True vulnerability is not weakness—it's strength. Do your best! Show your love that you love!

Capricorn (Dec. 22-Jan. 19)

Stop asking everyone what you should do and take action! You know what to do. You've planned and thought and bargained. You've discussed and challenged. But, the reality of the situation is that you can do whatever you want. So stop acting like a child. Stop hiding from the world and start doing. The chance to live the way you want might never come again.

Aquarius (Jan. 20-Feb. 18)

Your heart is in the right place. Is your mind? You need a break. This is starting to weigh too heavily upon your heart. This is the trick, when we feel we can't do anything right or that we've reached a breaking point that means we need a break. Don't martyr yourself. You can take one. You can take a small break every day. This is a choice.

What can you do? If you've pushed someone too far they may tell you that they can't keep it up. You may mean well, but there is always a breaking point. If you've reached this point with someone you like take a step back and relax. This is the time to do as you've always wanted. Focus on yourself. Stop looking for others to fill the void.
