On Aug. 4, prepare for the awesome power of the Last Quarter Moon in the Sun sign Leo. Prepare for a "crisis of conscience." Do not fear this transformative power. Allow it to lend you strength. Now is the time to sort through what works and what doesn't. You have the power to change your life. Madame G salutes you. We're all in this together. God speed!

Aries (March 21-April 19)

Dear Aries, what will you do? Will you continue to wallow in self-hatred, anger, and destruction? Perhaps you should consider another path. You may always feel the pull of the destructive power of anger, but that doesn't mean you have to give in. In the end, the only one you really hurt is yourself. Try something new. Make one small change at a time. Live well.

Taurus (April 20-May 20)

So this is it. You must make a choice between the life you want to live and the life you're currently living. You can do anything you put your mind to. But, you must make a decision. You must take action or live with all the regrets that come from not living the life you were meant to live. In the end, ask yourself what is worse: failure or regret? Good luck!

Gemini (May 21-June 20)

How is it going? Do you feel a little lost? Maybe you're still a little sad. You haven't missed out on anything. Your life is as it should be. However, if you want to make a change now is the perfect time. You have all you require to live your best life. Stop looking outside of you for the answers. It's in your heart. You can do this. Believe in yourself, you're worth it.

Cancer (June 21-July 22)

What's one more degree, or passion, or accomplishment? All of those things are wonderful. But, you must start asking yourself if this is the life you really want to live. You can't keep living as if your heart will not falter. We can't have everything we want. We must learn to love everything that we have. The real issue with missing out is regretting that you took everything for granted.

Leo (July 23-Aug. 22)

What's up buttercup? Now is your time in the sun, not that you need it! You're full of surprises and creativity. In fact, you're bubbling up with ideas. Keep expressing them. Get those creative juices flowing and don't back down. Embrace the fear of failure and push forward with the strength of a Mac truck. There is nothing worse than regret. It's better to fail than to regret.

Virgo (Aug. 23-Sept. 22)

Your life has all the meaning that you put into it. Don't regret what you can't change. Instead embrace all that is good in this world. Share the wealth of experiences with everyone you meet and don't change your values to suite everyone else. Live this life with an open heart and open mind. Reach towards your dreams and they will find you. Keep going. You're almost there.

Libra (Sept. 23-Oct.22)

Don't stop believing in yourself. But, when someone makes a suggestion you may want to listen. In fact, if the whole world is shouting at you—you may want to make a change. Don't live up to other's standards by any means and don't make others live up to yours. You can't force anyone to follow you. If you want it to be genuine you must lead first and they will trust you.

Scorpio (Oct. 23-Nov. 21)

The buck stops here! You can't blame anyone for your failures, not trying, or feelings of being lost. If you can't find the track then take another path. You may have to give up this life in order to lead the one you've always wanted. Don't beat yourself. Instead, be kind. Admit that you're not always capable and then lean forward and press on. Keep going forward. You will get there.

Sagittarius (Nov. 22-Dec. 21)

Slowly, but surely, wins the race. You can do anything you want and live the life of your dreams, but you must work tirelessly for it. At least, you can't give up. Put one foot in front of the other and keep marching forward. You may encounter thieves, robbers, and murderers along the way. Sometimes you may outsmart them and others not. Just keep trying and do your best.

Capricorn (Dec. 22-Jan. 19)

Never fear Capricorn! You're not alone. You live on a rock with lots of sad and lonely people. This should give you heart that you're not alone. You can reach forward toward your dreams or learn to hide your light under a bushel. Whatever the case, never forget that you're not alone. But, all must walk this path in their own way. Live yours as you will and you won't regret it.

Aquarius (Jan. 20-Feb. 18)

What can I say, you're right. What does it matter? You can be right or you can be happy. If it's me, I'd rather be happy. However, that's just me. And at times it's hard when no one listens. Remember, everyone has a story and some of them are very sad. Don't hide from this pain it's as much a part of the human condition as anything else. Release the tears. Release the pain.

Pisces (Feb. 19-March 20)

What will you do dear, Pisces? You're heading down this path and you don't know where it will take you. You have pain in your heart and you hide from that fear. But, you know that you can't escape the tomb of loneliness. If you find that your relationships with others, is very hard, learn to forgive yourself and then forgive them. We're all just doing all we can. Farewell little Pisces.
