

***On Aug. 11, prepare for a unique and exciting experience. The New Moon occurs during a Solar Eclipse. The Sun is in Leo, so you may experience confidence and joy. You may also learn to appreciate family time, creative endeavors, and how to not sweat the small stuff. Madame G encourages you to write out everything that is important and cross off the rest. You're worth it.***

### **Aries** (March 21-April 19)

Dear Aries, you're intense and you run a little hot. That's okay—you're passionate. However, this passion can get ahead of you. Also, you can't be passionate about everything all at once. It's advisable to pick one thing that's really important to you and work on that. When you feel you've mastered it to your liking, keep going or work on something else. Don't neglect yourself.

### **Taurus** (April 20-May 20)

You've got a long way to go. But, you've come a long way too. When looking ahead, don't forget to look back and assess where you are. It's never accurate to just see where you are. You must examine where you've come from. In that way, you can accurately judge your situation. Never compare yourself to others (you don't know their path) just compare to you. It's enough.

### **Gemini** (May 21-June 20)

This is one heck of a journey. You're trudging along at the pace that's good for you. Don't let others tell you it's not enough. Only you can judge, if this is the right path for you or not. Instead of waiting for fortune to fall from the sky, consider how you could help others as you help yourself. We're all in this crazy journey together. You have intel that could help someone else.

### **Cancer** (June 21-July 22)

---

You can't accomplish everything in this world. You can take small steps that progress forward and help you accomplish what you've always wanted. Look toward the future while never forgetting the past. If it's all the same to you, let others have the "right" argument. Instead look for how you can help others. And remember they may be "right" but they may not be happy.

### **Leo** (July 23-Aug. 22)

What a beautiful crazy happy journey is this life. It's full of wonder and surprises. Don't forget to treat yourself this week to something new and exciting. Look to family for a gathering of exciting times. Stay solid in yourself and remember to always help others and lift them up when possible. Don't get stuck in the past. Always look forward towards the sun. This is your time.

### **Virgo** (Aug. 23-Sept. 22)

Self-doubt takes many shapes. It may be that you find yourself swayed towards every new idea that comes your way. Take a few minutes to examine if this really is the one for you. Look at it carefully and think about. You can do so much more than you realize. Have faith in yourself and take care of others. You're worth more than you think. Good luck!

### **Libra** (Sept. 23-Oct.22)

It's great to treat yourself. But, don't go overboard. Look inward and ask if this is what you really want. If you can be happy without the reward, you'll still appreciate the thing. If you don't really want it, you may notice that the shine is really tarnished. There is more to life than money. You can't expect it to solve all of your worries. People are more important. Trust yourself.

### **Scorpio** (Oct. 23-Nov. 21)

Keep learning and pushing yourself. Instead of taking big steps, consider taking small ones each day that help you improve. With this daily progress, you'll notice that there is great

improvement and that you're already at your goals before you know it. Take stock of your surroundings and keep heading towards the sun and your future. Don't look back. You've already passed that part.

### **Sagittarius** (Nov. 22-Dec. 21)

You don't have to do everything, but you do need to do something. It's not enough to waste away and hope that the universe will provide—it won't. The universe or whatever you believe in helps those who help themselves. Even if you live completely off the land, you will still need to plant, harvest, and tend your crops in order to achieve anything. You can. Keep trying.

### **Capricorn** (Dec. 22-Jan. 19)

What is worry worth? Nothing. It's worth nothing. Worry does not help those you worry about. It does not help you. It does nothing except rob you of something beautiful, the joy and glory of this life. You must learn to appreciate the journey. Life is not about the destination—it's about the journey. If you have nothing to look forward to, look for one small thing and focus on that.

### **Aquarius** (Jan. 20-Feb. 18)

You can do this. You think you can't, but you can. Don't get upset. Persuasion is a fine skill that requires some work. It is possible to learn. It is better not to tell others that they're wrong right away (even if they are). Instead, look for the common ground. Look for that one small thing that you can agree on and focus on that. Don't look to change their mind. Change their heart.

### **Pisces** (Feb. 19-March 20)

You can't look to others for self-esteem. You won't get it. You must look within for purpose, drive, and satisfaction. You won't find it with others. You can't pay for it. You can't inherit it. You can't buy it. In order to find what you're looking for, you must confront yourself. This is difficult.
