

Since Sept. 9, Venus has been in Scorpio. This intense pairing will remain there until Oct. 31. Madame G recommends that you get used to the unexpected and prepare for intense and passionate moments. In addition, a First Quarter Moon rises on Sept. 20 setting the tone for new beginnings. This is a good thing. Consider it pre-planning for the upcoming New Year, now.

Aries (March 21-April 19)

You're a passionate person. You feel things deeply, and your reactions are often a react now, think later sort. Madame G recommends that you take five minutes each day to breathe deeply and refocus the mind. Be kind to yourself and forgive your short comings. Then share your perspective with your community. Do this by sharing a smile or lending a helping hand.

Taurus (April 20-May 20)

The world is open and available to you. You're a person who gets things done. You take pride in your work, even if it's not what you love. But, you do put effort into making a quality product. This is a wonderful quality. Now apply it to your everyday life. You can make the most out of this world by doing what you do best—making the best of every situation. Go you!

Gemini (May 21-June 20)

So this is love? If someone is hurting you verbally, physically, or emotionally—that's not love. They may care about you, but they don't have enough self-control to love you the way you need or deserve. Remember, you're a beautiful soul with a giving heart. You are as worthy of love as anyone. It's often hard to see your own worth. Wake up and know you're worth loving.

Cancer (June 21-July 22)

You're an amazing friend, loyal sibling, and son or daughter. There's no need to kick yourself for all that you've done wrong. You're enough. Care for your friends and family and let the rest float away. There are no expectations except the ones we make for ourselves. If you force it on yourself, then you can't blame anyone else. Let go. Breathe free. Good luck!

Leo (July 23-Aug. 22)

Love your family and yourself. Show your friends how to live the best life by pursuing your dreams. You can also give back by teaching others what you've learned—there is a greater sense of accomplishment, when you give back to the community. Spread your joy and purpose.

Virgo (Aug. 23-Sept. 22)

Live free! Enjoy your life and work hard toward your goals. You're capable of more than you think. No one ever said work had to be a bummer; put some love and a smile into it and take note of how everything changes. Hard work and lots of love are an amazing pair.

Libra (Sept. 23-Oct.22)

You're a leader. You may not be in a position of power, but you're a leader. In this world, people will judge you by how you treat others. If you keep finding yourself stuck in a trap or that people just don't react well to you, stop what you're doing. Instead, consider how you lead others and you may find the answer. You're a leader. Be a good one.

Scorpio (Oct. 23-Nov. 21)

At the end of the road, you have a choice. You can move forward, turn around, or go another direction. You can also stop where you land. The choice is yours and there is no right answer. You will find challenges and triumphs at any point. You must decide what is worth doing and what is worth fighting for. What's worth your effort? More importantly, what's your time worth?

Sagittarius (Nov. 22-Dec. 21)

This is the end of one road and the beginning of another. Keep pushing forward. You can only do your best. But, this may not be enough. If it's not, you may need to rethink the effort and the time. If it's not working, but you refuse to let go—keep working towards your goals. Maybe you just need a mentor or a coach. The answer might be easier than you think.

Capricorn (Dec. 22-Jan. 19)

This is a new beginning. It could be epic. Maybe this is what you've been waiting for. You can't imagine that life will be better or different when you're stuck in a trap. But, you can do so much more than you ever imagined. Give yourself a chance to break free and live a new one.

Aquarius (Jan. 20-Feb. 18)

You can do so much more than you think. Don't give up now. Give yourself a break and break free. This is the life you were meant to live. Sometimes we just have to stop and remember that we are alive and what a gift that is. Have you been grateful lately? There's much to give thanks for.

Pisces (Feb. 19-March 20)

Life is what you make of it. You can live the life of your dreams, but you're going to have to work for it. Give up your need to be right. Look to helping others. Give yourself the chance to break through barriers and allow yourself to be bad at something. You can do so much more than you
