

This week, take the lumps with the blows. Keep yourself in check and don't be rash. Remember, think strategically. You can make mistakes, but you must own them and accept them. Sometimes, the best thing to do is to do nothing. Don't react. Madame G recommends you breathe deep and take care of you. Be you! Don't hesitate. Don't look back.

Aries (March 21-April 19)

Compassion is an important part of any relationship. Don't take anyone for granted. Learn from your mistakes. Move onward. Don't look back and waste your life among the ingrates and charlatans. Don't lose yourself in the rat race only to forget who you are. Know thyself! Answer your heart and run forward with sweet determination. Determine your course forward and go!

Taurus (April 20-May 20)

Don't lose your mind! You're on the right path for a better life -- just keep pushing forward and don't look back. Keep your heart open and your mind free. Look inward and know your mind is the forest among many forests. You can keep locking yourself into a corner and do what you can. Look at yourself and navigate what you can. Do your best.

Gemini (May 21-June 20)

What can you do to change your heart? What can you do to live your own life? You're an open book of companionship and degradation. But you don't have to do any of that. Keep your mind open and your heart free. Live long and prosper!

Cancer (June 21-July 22)

Don't joke with your own heart. Sometimes, it's to ourselves we tell the most tall tales. Don't fool yourself. Whatever you do, slow down, check. Make sure you aren't shielding yourself from the truth. Live the life of your dreams.

Leo (July 23-Aug. 22)

You can do anything -- if you put your mind to it. Life is much better when you listen to your heart. Put effort into any interaction you may have and do what you can. This is the purpose of life. Hesitate and you may miss the mark. Move up and away from where you are and where you will be. Nothing in this life is worth more than your life. Don't hide from your love.

Virgo (Aug. 23-Sept. 22)

Don't force yourself into a position you're not ready for. Now is the time to push forward when you have nothing left to give. Break your heart among the stars and give yourself the love you were never given. You can be all that you want and have the life of your dreams by pushing forward at the right moments and in the right way.

Libra (Sept. 23-Oct.22)

Look into your heart and don't push away from the feelings. We find myriad small impasses within ourselves from those places we didn't just let be, whether from pain or embarrassment or because we thought we were too busy to face them. Find the time to acknowledge these places inside, and let them show their faces. Face them. Keep pushing forward.

Scorpio (Oct. 23-Nov. 21)

Don't give up. There is a silver lining somewhere among the clouds. You can do so much more than you ever imagined. Face your fears and don't jeopardize yourself. Often times the best action is non-action. Don't overreact. Don't underreact. Put your best foot forward and don't act out. Walk the path to the best of your ability. Forgive yourself and move forward.

Sagittarius (Nov. 22-Dec. 21)

Don't fear who you are. Put your best foot forward and do your best. Now is the time to sing and dream. Now is the time for love. You can do your best and push yourself beyond what all is good and right. Do your best. Push forward and don't forget who you are. You don't deserve this much pain. You are a good person.

Capricorn (Dec. 22-Jan. 19)

Spring forward and do your best work moving forward. Now is the time to live and let live. Don't get caught up in the moment or push yourself into the fire pit. Give yourself the most important gift of all. You can learn so much from every moment. Take a deep breath and don't overreact. Don't give yourself a moment's hesitation. Don't lead yourself beyond the dream.

Aquarius (Jan. 20-Feb. 18)

Dream your wayward dreams and do your best for yourself. Now is the time to live beyond the measure of your heart. Don't look beyond yourself, just keep moving forward. Take a look into your heart and do your best work. Now is the moment of all dreams, and keep an open mind and an open heart. Don't look down at yourself -- have faith in your life.

Pisces (Feb. 19-March 20)

Be yourself and try to forgive others. Now is the time to be all you can be. But if you can't let others be, you will never truly be either. Open wide the places in you in you that tighten in the
