***The February Full Moon is called the “Full Snow Moon” because snow often falls in February (apologies to those who are ready for spring). Another name for this Full Moon is the “Hunger Moon”. How much hunger do you experience? Madame G wishes you well on your journey. Do not be afraid to reach out and seek help, others will reach back. You are worthy.***

### **Aries** (March 21-April 19)

Don't laugh at your failures. Learn from them. It can be painful to know that you've done all that you can, and perhaps not done as well as you'd hoped. But, that doesn't mean you're not worth the effort. You may need to fix errors or fix the things that are broken. You can impart great wisdom by looking inward and believing in yourself. You are worthy of love.

### **Taurus** (April 20-May 20)

You don't need to lose yourself in order to keep others happy. You're as deserving of love and acceptance as anyone. But, you **MUST** speak TRUTH. You must learn about yourself and be honest with yourself. Do your best and show the ones you love that you love them. Reach out and allow those same loved ones to be themselves. You are not in control. Be free.

### **Gemini** (May 21-June 20)

Give strength to your dreams and passions by taking charge of your mental health! Don't get caught up in the “coulda, woulda, shoulda.” Take control of your life and all possibilities. Push yourself to live a better life by pursuing what you love. Look within your heart and do your best. Life is what you make it and if you enjoy the experience then you've lived your life. Good luck!

### **Cancer** (June 21-July 22)

Look within your heart and pursue the life you've always wanted. Don't look back. You got this! You're worth more than you know. Keep your head up and your chin pointed forward. Life is always challenging, but how you respond reveals the heart within the person. Do a good job and those around you will take notice. Live well! You're more than worthy.

### **Leo** (July 23-Aug. 22)

Live the life you've always wanted every day. Reach out and show the ones around you how much you love them. Take care of yourself. You're a person of value and you have an incredible amount of light to give. Keep your heart open and share that love with everyone you see. You're more than worthy. You're the greatest! And your friends and family know it.

### **Virgo** (Aug. 23-Sept. 22)

Don't lose sight of who you are and who you want to be. This is your time. Be who you are and live the life you've always wanted. Take care of yourself and those around you. Look within your heart and let it sing to you. You don't need to be famous to have love. You don't need to have a ton of things to be happy. All you need in this life is the love within your heart. Sing!

### **Libra** (Sept. 23-Oct.22)

Focus on what you need and allow the rest to follow. You can accomplish more than you realize when you take a step back and delegate. You don't have to do everything. You don't have to be everywhere. You can accomplish so much more than you'll ever know, if you push yourself to be open and live. You're worthy, so remember to show others they are worthy, too.

### **Scorpio** (Oct. 23-Nov. 21)

You'll face challenges in this life. You're more than equipped to handle them now than ever before. You have what it takes. You can accomplish anything you set your mind to. Put your

best foot forward and do what you can. This is the best time to open your heart and let go of the past. In this world, you must get used to discomfort and uncertainty. You're worthy. You can do it.

### **Sagittarius** (Nov. 22-Dec. 21)

Well, what's up? You need to look internally and address the issues you're facing. Now is the time to push all feelings of retribution aside. You can look inside your heart and know your value and worth. You're more than the sum of your parts. You're an entire person within your body and you have a full life of rich and beautiful experiences. You're worthy and so are they. GO!

### **Capricorn** (Dec. 22-Jan. 19)

Listen to your heart as it speaks a quiet language. Your heart is not angry, it's tired and bruised. You're the abuser, not those on the outside. We are the ones who damage ourselves, with our mean language and hurtful opinions of ourselves. We can accomplish so much, if we put the right foot forward. You're worthy of forgiveness, but first you must forgive yourself.

### **Aquarius** (Jan. 20-Feb. 18)

Look in your heart and believe in yourself. You're worthy of this change. Now you must believe. Many of you Aquarians have celebrated or about to celebrate a birthday. It's time to chart some realistically attainable goals. If you want the ocean front property, or any lofty goal, set your sail in that direction by staying focused.

### **Pisces** (Feb. 19-March 20)

It's easy to get bogged down in pettiness. If you keep looking for problems, you'll find them. Keep an eye on the horizon and push yourself towards the stars. Now is the time to be who you are, don't get trapped by what you think. You can accomplish anything that you believe is
