The Sun is in Pisces until March 19, and a First Quarter Moon appears on March 14. Prepare to imagine a better future. Don't get stuck, or caught up in details just yet. First, you must imagine the possibilities for your future. Then by taking small measured steps, you realize your reality. Madame G wishes you well on your journey. May you be more than your obstacles. Live well.

Aries (March 21-April 19)

You are pushing toward your goals like a freight train crashing through debris. Don't get caught up in the drama. If someone is deliberately trying to derail you, take measures to stop them. Remember, you're enough to handle any challenge. You can do so much more successfully than you realize. Focus on yourself and keep moving toward your goals. You've got this.

Taurus (April 20-May 20)

You're the master of your own destiny. It's up to you to live the life of your dreams. No one can, or will do this for you. If you have something you need or want in this life, it's time to pursue it. Stop focusing on drama. Stop trying to tell people what to do. Focus on what you'd like to see in yourself, and others, and start putting that into the world. Only you can do this, good luck.

Gemini (May 21-June 20)

Love yourself and look into making travel plans. It's time to get out there and enjoy this amazing world. Remember, travel doesn't have to be expensive. You can explore the great state of New Mexico and the surrounding states. You can head off to the mountains, or a city you've never visited. You probably haven't explored every part of your environment. There's so much potential.

Cancer (June 21-July 22)

Look deeply into heart and ask yourself: is this what I really want? Search for the answer and be kind. Be kind to yourself. Be kind to others. But look deep into your soul and tap what means the most to you in life. It could be that you need to save some money to take that vacation in the French Riviera.

Leo (July 23-Aug. 22)

Your heart is in the right place. Keep pursuing your dreams and staying creatively engaged. Only you know what you'd like to get out of this life. Only you know if the pursuit is worth it or not. It doesn't matter how slowly you go, as long as you are enjoying each and every bit of the process. Don't lose faith. Your life is yours to live. Enjoy.

Virgo (Aug. 23-Sept. 22)

Keep an open heart and stay honest with yourself. You can do so much more than you ever realized. Focus on what you can change and keep pushing forward. You'll get there eventually if you pursue your dreams relentlessly. Don't get lost in the details. Allow yourself to make the distinction between what is possible and what's not. Pursue what's possible. It's better that way.

Libra (Sept. 23-Oct.22)

Your employees and family are your allies. They realize you're doing the best you can. You don't need to be everything for everyone. Keep pushing forward and allow others to help you. You'll accomplish more than you've ever realized. Pursue your goals with force, but don't run over anyone. Be open to accepting help from team members, and offer help of your own.

Scorpio (Oct. 23-Nov. 21)

Don't get stuck. Stay woke! Now it's time to push forward and realize what you can do. Don't get lost in the details. You're capable of more. Don't fear your potential. Now is the time to pursue the new and higher paid job. Now is the time to take on a side hustle or start that side business. Don't lose faith. Focus on good habits and take charge of what you can change.

Sagittarius (Nov. 22-Dec. 21)

Look towards the future and keep pushing for a better future for your life and family. Home is where the heart is. We all have our outside responsibilities, but cherish the down time. Binge on some Netflix or Hulu. Cuddle with your loved ones. We only get this one life.

Capricorn (Dec. 22-Jan. 19)

What do you want out of life? Now is the time to look inward and ask yourself what you'd like to accomplish. You can do so much, if you put your mind to it. Don't be afraid of pursuing your dreams. Don't be afraid to consider the many great possibilities. Push yourself forward and do your best. Love yourself and forgive yourself. You're doing the best you can.

Aquarius (Jan. 20-Feb. 18)

You can do this, don't stop. Your voice may shake and your hands may become blocks of ice, but you can do this. You don't need to focus on the exact details. Focus on what you can change. Push forward and pursue your goals. It's now or never. Don't hang your head. Wake up and hold your head up high. You have arrived. Keep going.

Pisces (Feb. 19-March 20)

It's not that other people are out to get you. They're just out for themselves. It's better to allow others time to pursue their own interests. They will likely be different from yours. In this way, focus on yourself. Don't let others influence what you actually care about. Foster healthy habits
