

***Get ready Aries! On March 20, the Aries Supermoon emerges. Aries is the god of war and destruction. Appreciate this powerful energy. This can be overwhelming and terrifying. Remember, fire is both destructive and creative, as it allows for new growth. Madame G recommends that you strengthen yourself by burning away the unnecessary bits. Forged in fire.***

### ***Aries*** (March 21-April 19)

Dear Aries, your Sun sign enters the forefront, at the same time as a Supermoon. You may experience a surge of new emotions. Do not fear yourself. You're stripping away at the non-essential, and that is necessary. You may find that you feel vulnerable. Just remember that this is not weakness with the right people. You have strength you're not aware of: love. Share this gift.

### ***Taurus*** (April 20-May 20)

Don't fear the reaper, dear Taurus. This fear is only fear of yourself and your shadow side. Everyone has the capability to do great deeds either of good or evil. By locking away this part of yourself, you're just lying to yourself. Everyone else is aware of your strength. Don't weaken yourself. Recognize that knowing you're capable of evil, and not acting on it is goodness.

### ***Gemini*** (May 21-June 20)

Look to the future Gemini, you're holding back on yourself. You don't need to wait to find the perfect moment or partner. You are enough. You may find bits of your soul among others, but the one you have been looking for is inside of you. That is the power of the twin—it's you—it's always been you. That's who you're looking for—it's your other side. It's you.

### ***Cancer*** (June 21-July 22)

Love yourself, Cancer. Don't hide or shy away from the restless emotions. Reach out to lost friends and connect with yourself. There is more to life than working and striving. Yes, you may have missed out on opportunities that you weren't aware of. But, now you know where to go to find all of the answers. Look inside your heart and share love with yourself. You're worth it.

### **Leo** (July 23-Aug. 22)

Dear Leo, don't be so hard on everyone. They are not against you. They're for themselves. Be proud of your accomplishments and all that you've done, but understand others are working towards their own goals as well. Don't worry about the rest. Focus on your own tasks and look inward. Enjoy your life and give love with no strings attached.

### **Virgo** (Aug. 23-Sept. 22)

Keep working towards your goals dear Virgo, and don't give up. Life is about accepting what you cannot change. But, there is so much you can change and accomplish. It all starts within your own heart. The only thing that you can really change is yourself. You're more than capable of reaching out, and being more than you imagine. Love yourself and share this with others.

### **Libra** (Sept. 23-Oct.22)

Don't lose hope dear Libra. Look into your heart and allow others to assist you on this journey. You're not an island and you do need those who will push you toward your goals. In this life, you're capable of more than you think. So are those around you, and they will continue to surprise you (in a good way) if you let them. Good luck!
