

***Happy Friday 13th! Madame G wishes you well. If you find you don't want to do something consider your deeper motivations. You might be avoiding a deep truth that needs to be faced. It's perfectly fine to run away to fight another day. But, sometimes you need to stare the hydra down and fight. You know if this is the time to fight or hide.***

**Aries** (March 21-April 19)

Your life's trajectory is not set in stone. You can make moves to better your life. You may not be a rock star or some other type of star, but that doesn't mean you can't have a good life. You're not a bad person. You're a good person who occasionally makes mistakes and those mistakes might be really really BIG. But, you can still live a meaningful life and experience peace. Try it.

**Taurus** (April 20-May 20)

Your heart is in the right place, but the result was off. You're not perfect and that's okay, too. People don't need a perfect automaton that repeats meaningless drivel. They need someone they can trust and care about. It's crazy that sometimes the people who seem unkind can have such strong networks. Could the key be honesty? Try it yourself, but use tact.

**Gemini** (May 21-June 20)

You might feel like everyone wants a piece of you, even if nobody ever seems satisfied with what you offer. Navigating between the demands of home, significant others and career is a major mission for you this month as the planets tug at you. Give yourself a break and head out the door with style and confidence. You're rocking it!

**Cancer** (June 21-July 22)

---

Give yourself a break, you didn't know. If I had a dollar for every time I didn't know something - I'd be a one percenter. And I am, in my own way. Why? Because I have learned from my experiences. You, too, can learn from your mistakes, dear Cancer. Don't let this break you down or hide your inexorable light. This too shall pass and quickly fade from memory.

### **Leo** (July 23-Aug. 22)

Proud and noble Leo, your heart is a lonely hunter, but you have a knack for seeking out company. You know when it's time to let that light shine and grow. Don't be afraid of yourself. And don't be afraid to take time out and enjoy your alone time. It's the best time to think and reflect on how you can make yourself into a better person and help those around you.

### **Virgo** (Aug. 23-Sept. 22)

You have multiple adventures. Keep an open heart and open mind with a keen eye on the road ahead. Look toward your future with vision, grace, and poise. Don't get lost in the realms of unforgotten dreams or unrealized hope. Don't drown in the world of "whatever" only to wake up and regret your choices. Look within and know yourself. You're capable of more. Do it!

### **Libra** (Sept. 23-Oct.22)

Love yourself and those around you. You have the power to make or break someone's day. You don't have to let them linger in a puddle of self-doubt, keep the door open, and the heart right where it belongs. You are more than capable of letting the world take over. Give it your best shot. You've totally got this!

### **Scorpio** (Oct. 23-Nov. 21)

Dear Scorpio, nice job! There was a tumble, but you popped up right where you belong. You've got to put a little elbow grease in and do your part, but you've got this. Just keep on pushing

forward with clear and insightful deliberation. You're making great strides. Remember, be an infinite player in this crazy game we call life. You can do it!

***Sagittarius*** (Nov. 22-Dec. 21)

Be loud and proud of who you are, so that your children will grow up with confidence. You don't need to put others down to feel better. Learn to put yourself first, without cutting out the essentials. You need your family and good people in your life. Put in what you can and take time out for yourself. That's not selfishness, it's wisdom.

***Capricorn*** (Dec. 22-Jan. 19)

Dear Capricorn, put your best foot forward and take care of yourself. This world can be treacherous. That's why you need to reach out to your friends. Your loved ones are living the best lives they can, and they need you to live the best you can, too. Don't be afraid. You're capable and you can do this. You are a good friend to others. Be a good friend to yourself.

***Aquarius*** (Jan. 20-Feb. 18)

Don't melt the chocolate unless you want to make a mess. Instead consider taking small deliberate steps that help you accomplish your goals. Look toward your future and live the best life you can. Tackle your habits and keep on trekking. Eventually with enough time, effort and deliberation you will get there. Remember to enjoy the ride as you go along the way.

***Pisces*** (Feb. 19-March 20)

Live your best life, NOW! Don't wait to be happy tomorrow or next year, or when you get a new job, or new partner. Learn to love who you are right now. Be who you are right now. Be with who are you with, right now. Enjoy your life before it passes you by, and you look toward an unknown future. You can look back and know that you lived a good life. Good luck!
