

You should reorder a few values in your life. It's time to think outside the box. Madame G recommends that you learn a lesson from the wise rattlesnake. When they are babies they release all their venom at first bite. This will kill their prey. But, they have nothing left. Adult rattlesnakes don't do this. They know to slow down and strike carefully. May you do the same.

Aries (March 21-April 19)

This is the world of the future. There is no other time but now. Stop looking to an unknown world to be perfect. Enjoy what you have. Live, laugh, and love! That's all you really need to know.

Taurus (April 20-May 20)

Instead of focusing on the details, take a moment to stop and look around. Look at the beauty around you. This is the world we have now, as it is, not as it could be, should be, or will be. This is the world as it is. Understand that you can only change so many things, but those things may very well be significant.

Gemini (May 21-June 20)

It's time that you stepped up and took the lead. It might seem scary, but you can do it. Don't derail things just to be contrary. Do everything with a purpose and you'll live longer and be healthier. Good luck!

Cancer (June 21-July 22)

The beauty of not knowing the outcome is that you'll be able to experience an entire world with fresh eyes. You may discover yourself in ways you'd never imagined. You may in fact see

things that are better than your own imagination. Good luck!

Leo (July 23-Aug. 22)

Slowing down is not giving up. Focus on the world around you and enjoy what you see. Slowing down is not giving up. Have you ever noticed how a puppy flops around, their limbs seemingly out of control? Adult dogs have more control. They're reserved in their movements and take fewer steps. They have the benefit of age and wisdom to help them slow down and enjoy everything. Enjoy!

Virgo (Aug. 23-Sept. 22)

Don't give up now! You're barely getting started. You can do this. First one step then another step, then another and then keep going. You've got this.

Libra (Sept. 23-Oct.22)

The shadow side of any sign is a warning of potentially harmful behavior. Libras have a talent for balance and weighing both sides of an argument. But, it's easy to focus on one side in order to balance, rather than seek the truth and actual justice. Don't get trapped in your own ideas. Give everyone else a chance to speak and go from there.

Scorpio (Oct. 23-Nov. 21)

Move forward to the best of your ability. Show some courage. Get out and do something that you normally wouldn't. A willingness to step outside your comfort zone is necessary if you want to tap into real magic in life. A strategic alliance could be born under these skies.

Sagittarius (Nov. 22-Dec. 21)

Do no harm! You can't avoid not hurting anyone in this life. You may have killed an ant or the bugs that live on your eyelashes, but that doesn't mean that we can't aim to be better human beings. In fact, if you spend the rest of your life trying to be a better person, you'll have lived a good life. So do that.

Capricorn (Dec. 22-Jan. 19)

The only real fear is inaction. Take action. Don't allow yourself to get stuck where everyone is stuck. Don't get lost where everyone is lost. Be a leader. Take responsibility. Take accountability. Think it through and take action. Go!

Aquarius (Jan. 20-Feb. 18)

You can do this. You can't give up on others even if you feel like it. They may seem awfully hopeless at the moment. But they are not without their own problems. Take care of yourself and do what you can to help others. You'll find that life is a lot easier that way.

Pisces (Feb. 19-March 20)

The only way to move on is to move forward. You can't get to your destination, if you're looking in the rearview mirror. Do your best to reach your goals, but don't get stuck on the details. Jeff Bezos said: "Be clear on vision and flexible on details." You don't have to know how you'll get there, if you keep on trucking, you'll get there. Good luck!
