

The Moon enters Capricorn at 5:53pm on Oct 4. This will provide an earthy balance to the tumultuous emotions of Scorpio's water and Sagittarius'

fiery influences earlier in the week. You will focus on tangible emotional outcomes and safety. Madame G recommends that you spend time in nature and release pent up paranoia and anger. Learn to free yourself.

Aries (March 21-April 19)

What does your journey entail dear Aries? Your path is full of greatness and you will accomplish incredible things. You may not find the "Holy Grail." But, you may discover the journey is worth more than the prize. For this reason, you'll experience more joy in dabbling than putting all your effort in one direction. There is nothing wrong with this, enjoy it - it's your journey.

Taurus (April 20-May 20)

Don't be afraid of a little rivalry. You may learn the most about yourself by watching yourself in opposition. There are many lessons to be learned. Don't give up just because you learn something that you don't like. You can do this. Be brave.

Gemini (May 21-June 20)

It's difficult to know what path to take. Your heart goes in many directions and you long for - you don't even know what. You long for something that you can't name. It's not something foreign. It's within you. You are the other half of your soul. When you finally learn this, you'll experience peace, and perhaps share this peace with others. Until then, live well.

Cancer (June 21-July 22)

You can't play both sides in the game of love. You must be all in or all out, there is no middle ground. But, when you are all in for love, this means suffering great heartache, so that you may find true peace. This doesn't mean accepting abuse. You must have strong boundaries and amazing communication. But, you must look at what you are doing that could cause harm.

Leo (July 23-Aug. 22)

Freedom lover and great showman! You are capable of as much as you imagine. Do what you can and enjoy it. Live your best life and don't hold back. Learn to appreciate what you can and share your wisdom with others.

Virgo (Aug. 23-Sept. 22)

You stand alone, but you are not lonely. You have much to accomplish and you're ready to do it. Appreciate what you have and do what you can. This world is yours for the taking. Heavy lies the crown, for you have much responsibility. You may suffer for a time and in the end you will go further than you ever thought. Do your best and you will be great.

Libra (Sept. 23-Oct.22)

Challenges will come and go. It may cause more trouble than you're ready for and it may make you uncomfortable. But, that doesn't mean you shouldn't enjoy the ride. Now is the time for you to take the lead. Open up difficult conversations and perform any forgiveness work that's standing in the way of feeling peaceful.

Scorpio (Oct. 23-Nov. 21)

purpose, one that leads beyond the basic pettiness of life. You enjoy your life and the world around you, but you are learning. You are emerging from the cave and will soon be delighted by the sun. This is glorious and terrible. It will be overpowering and well worth it. Rest well.

Sagittarius (Nov. 22-Dec. 21)

You have talent. Are you throwing it away? Do not fear, the greater the demon - the greater the power. However, you must learn to accept this part of yourself and grow beyond it. Darkness can't live in the black of night. You must do what you can and stick with it.

Capricorn (Dec. 22-Jan. 19)

You have intelligence no doubt. And you live according to reason, even if it doesn't follow anyone else's reason. You understand the logic even if no one else does. However, this can cause issues. Take time to develop both sides of your left and right hemispheres and integrate the physical and intellectual.

Aquarius (Jan. 20-Feb. 18)

Do your best and allow yourself to see into the open loving arms of your destiny. Move forward with purpose, but take time to rest and reflect on what is best for you. You may make sacrifices to live where you are, but you must not sacrifice yourself.

Pisces (Feb. 19-March 20)

Beware! You need not live in a prison of your own making. You may think you're making the best choice possible and doing what must be done. You are choosing safety and security over your life. In the end, the cost you pay for such security will be with you all your life. Can you say the price is worth it?
