

Leo (July 23-Aug. 22)

It's going into Leo's birthday season, and Madame G assures you that this one will be a dazzling one to remember. Not for the weather, but the extreme positive vibes that you feel when the people in your life are in tune to each others needs. Some ice cream cake and good music will have you prancing around the house like the king/queen of the castle. You'll have a blast.

Virgo (Aug. 23-Sept. 22)

Don't let a an old friend influence future decision making – especially if you haven't seen this friend for years and he or she suddenly friends you on Facebook. All the sudden, it seems like it was yesterday that you last saw each other. People change and not always for the better. Even if it seems like a positive relationship, proceed with some caution. Buy a scratcher, you may win \$5 bucks.

Libra (Sept. 23-Oct.22)

The dust in your house is driving you batty. It's like you dust, and two hours later, like magic the dust is back with a vengeance. While you prefer balance and cleanliness, don't let it stop you from visiting that large body of water with friends or family. Slather some bronzer on those pasty legs and hop aboard that wave runner, boat or engage in whatever fun you like to have in the water.

Scorpio (Oct. 23-Nov. 21)

Sometimes your confidence is false and you fail to recognize it. Madame G wants you to feel confident, but not when it alienates you from other folks trying to be helpful in a situation. Scorpio, you can sting at will and hurt others or you can be the finest diplomat at work and home and get results that don't necessarily put you in the limelight. Think team work.

Sagittarius (Nov. 22-Dec. 21)

So, vacation is winding down for Gallupians and the school year is upon us. Madame G felt like half of Gallup was gone for about three months. How about spending this weekend at home. Do the “staycation” and attend the Gurley’s carshow, Freedom Flight & Ride and all the other fun activities in downtown this weekend. Feeling brave? Be sure to don that leather biker mama outfit and live it up a bit!

Capricorn (Dec. 22-Jan. 19)

Do yourself a favor and get loose! Shake out that hair, put on some makeup and go to the store. We need to glam it up a bit Capricorn as you rely T-shirts and jeans and pulling your hair back (gals) in a ponytail. You may ask me why look nice at the supermarket, well, I am here to tell you that if you want your star to shine bright, it starts with the most simplest things: taking care of yourself is taking care of your appearance.

Aquarius (Jan. 20-Feb. 18)

Having a nice summer? I figured you were. It’s definitely your thing. You love summer sports, whether it’s watching or participating. You also like the biking, hiking and outdoorsy kind of stuff that has become part of the Gallup landscape. G says you need to document your jaunts via video or photos. Share those experiences on social media. You’ll motivate others to do the same.

Pisces (Feb. 19-March 20)

It’s summer and like many fishes, you long to be near the sea. But those shark attacks televised in recent news reports have definitely put a damper on your fantasies of swimming with the dolphins. So, try a nearby lake or forested area. It gives you all the positive ions you need to recharge your batteries and to get you swimming upstream again.

Aries (March 21-April 19)

It's been a lighter week for you, emotionally speaking. You're feeling better and not so consumed by what you consider the rat race. Pull yourself up some more. Take a nice drive, with no destination in mind. Who knows, maybe you'll end up in Pie Town and get a mean sugar buzz going. Please order Madame G the Green Chile Apple Pie if you happen upon Pie Town.

Taurus (April 20-May 20)

Well, being somewhat structured, your mind is already in Fall. Relax, it's still July, even though the school year is around the corner. There's still some time to learn new hip hop steps and show it off to your friends. There's still time for an ice cream social and weekend camping. So, don't waste time thinking about Autumn. There's plenty of warm weather things for you to do.

Gemini (May 21-June 20)

Madame G kids around a lot about the duality of Gemini: the good twin and not-so-good twin. It's not that you are possessed by some evil twin, or you're morally questionable, it's just that you sometimes struggle with following the right path for you. Don't let outside influences control your day or destiny. If you want to eat truffles and watch Dr. Oz fret over women's health, then go for it! One day won't hurt.

Cancer (June 21-July 22)

As your birthday month comes to a close, remember the good times you had, instead of focusing on what you didn't get or what someone else got for their birthday. It's important to feel special in the eyes of our loved ones, but it's not everything. Crabs, with their tough exteriors, are actually quite sensitive and can easily crack. Madame G says to love yourself: self-worth is everything.
