

Aries (March 21-April 19)

The sun is in Libra this month. She is the house of tact, balance, and relationships. But, you would rather forge ahead with a machete than negotiate. Think and reflect this month. Use good judgment, at work, and in love. You'll be surprised by the results. Don't expend energy fighting battles that don't matter to you. Pick your passion.

Taurus (April 20-May 20)

Dear Taurus, the previous weeks have wreaked havoc on your control. Have no fear. Madame G is here with good news. Love is in the air. For those in relationships, take your beloved on an unexpected date and get caught in the rain. Enjoy a delicious and romantic meal for two. Singles should pay special attention to their appearance, dress up, and go out.

Gemini (May 21-June 20)

Your road was forged with steel and sweat. The past weeks have not let up. It's been go, go, go. But, everything is looking up. Your fellow air sign, Libra, takes over with calm collected energy. Her presence will smooth out those rough edges and bring much needed peace. Communication is key this week. Don't lose your head over spilled milk.

Cancer (June 21-July 22)

Your crabby nature rears its head this week. Do your best to maintain your bearing. It's the sign of a professional. Plus, you'll only beat yourself up for saying what you don't mean. Think before you speak this week. Watch Bambi, if it helps, and remember the sage advice: "If you have nothing nice to say. Don't say anything at all."

Leo (July 23-Aug. 22)

You'll have quite a few choices to make this week, especially in the area of love and romance. You were very lucky in love this past month. Now, it's time to pick one. Stringing someone along for that perfect moment is cruel and useless. Take the plunge. Your business and work life need you back. You can handle it.

Virgo (Aug. 23-Sept. 22)

Love is all around you Virgo. Venus dropped by your sign for some much needed tune ups in the romance area. Perhaps you meet up with an old flame, or re-kindle a long lost passion. Those in committed relationships step up the romance. Don't worry, expensive gifts are not required. Your earthy qualities revel in foot massages over gemstones every time. Enjoy!

Libra (Sept. 23-Oct.22)

Poor Libra, Mercury rattles your sign. Nothing is working right from the computer to the car radio. It'll pass. Someone is trying to force your hand. Your critical judgment and careful analysis usually serve you well. Don't fret. Take a chance — it may surprise you. Move across the country, on a pipe dream, or across the continent to pursue your passion. Destiny is just around the corner.

Scorpio (Oct. 23-Nov. 21)

Time slows for no woman, not even you dear Scorpio. But you're okay, that's how you like it. Your dancing cards are full this week. And you're charging ahead with a busy schedule. Networking takes precedence for the next six weeks. Your social calendar is full. But, with Venus in your house of hopes and dreams, you're headed for greatness. Good luck! Not that you need it.

Sagittarius (Nov. 22-Dec. 21)

It's time for fun! All the issues that keep popping up unexpectedly, and for no reason, will magically disappear. Well, not completely, they're just not as bad as you thought. There are still a few hurdles, but they're less powerful than you imagined. Your newly formed friendships have opened unforeseen doors and you're excited. Well done!

Capricorn (Dec. 22-Jan. 19)

You Earth signs love to have those hooves, I mean feet, planted firmly on the ground. You're in luck this week. You'll get your wish. It's just in time too. Your patience was wearing thin, with all the wish-washy unpredictable behavior. With Venus in your house of romance, you'll make a decision about your love-interest. For better or worse, it'll be decided soon, just in time for the holidays.

Aquarius (Jan. 20-Feb. 18)

You'll have an interesting week. Libra extends her blessings of balance to you. Check yourself out in the mirror and brush your hair. This month you'll likely spend time in your head contemplating the meaning of existence and loftier goals. Remember to look ahead and watch your step. Don't break your neck because you tripped down the stairs.

Pisces (Feb. 19-March 20)

LOVE is within your sights this week. It's your lucky week. Dress up and smell nice. Prepare for the unexpected. Those in relationships will feel renewed passion, fuzzy feelings, and love. Romance your partner. Singles get out there and mingle. You're feeling lucky and you should.
