

Aries (March 21-April 19)

Dear Aries, the intensity of Scorpio's sun fires your blood and revives your flagging energy. Pursue your dreams with vigor. Let nothing get in your way, not even a friend who falls through and leaves you racing to the airport. You'll run barefoot and make it in the nick of time. Don't give up. Exercise regularly and eat a well-balanced diet.

Taurus (April 20-May 20)

Balance your daily routine between work and play. Learn to organize the daily grind into a game that is both productive and enjoyable. It'll show in the final product. At home, you have little monsters, or kids, dressed up and ready for trick-or-treaters. Give away the candy and be generous. Your waistline will thank you.

Gemini (May 21-June 20)

The planets are aligned for you to pursue your passion, studying people. Mingle your heart you this month. Crack the surface and tackle the challenges of being human. We're all in this together. But, we might just need your in-depth case studies to see what's right in front of us. Good luck!

Cancer (June 21-July 22)

Hide from everything but yourself. Search your soul for the answers to life's important questions: what's for dinner? What's the meaning of life? Fix bad habits and recognize those dark and deep places within your soul. Accept that you possess both good and bad qualities, but sometimes you're just an ass.

Leo (July 23-Aug. 22)

Madame G admires the tenacious spirit of the sun in Scorpio, from Oct. 23 – Nov. 22. The guiding principle of this sign is, I desire. Secrets will surface and superficiality won't be tolerated. Explore yourself and dig deep. You never know what you'll find.

Go softly, Leo! Fostering relationships among friends and families requires attention and self-care. Beware how you speak to your loved ones. Your high energy is best compared to a wild lion roaring for attention. It's fun for you, but terrifying for everyone else. Follow Theodore Roosevelt's advice: "speak softly, and carry a big stick."

Virgo (Aug. 23-Sept. 22)

You're doing great. This month you'll experience a bit of rest from a hectic work schedule. You may find they simply can't afford you, at the moment. Still, you shine with perfection and efficiency. Where there's a will there's a way. Enjoy your free time because it's very likely your bosses, or clients, will beg you to return. Those famous ginger mojitos are getting dangerously low.

Libra (Sept. 23-Oct.22)

Expect the unexpected. Your life is bound to rock, rattle, and roll this month. Change is good. It sometimes feels disruptive and uncomfortable, but it creates new and wondrous avenues. Your adventures are just around the corner. You'll balance home and work this month. Take time for yourself. Pamper your soul, read the latest book or paint. Eat good food and laugh daily with friends and family. This is a blessed time enjoy it.

Scorpio (Oct. 23-Nov. 21)

Astrologers say there are three stages of the Scorpio sign: scorpion, eagle, and phoenix. The scorpion represents greed and an uninvolved mind. The eagle symbolizes strength and intelligence by flying among the clouds. But the phoenix is the definitive and enlightened form. Re-born from destruction, she signifies transformation. No matter how low you fall, or how broken you feel—you'll fly.

Sagittarius (Nov. 22-Dec. 21)

Focus on your career this month. Your financial needs are stressing you out, but channel this energy into your life's path. Only your children should provide distractions, let their laughter highlight your purpose. If you don't have kids, harness your inner child. Anyone who jumps in your path is a hindrance and unworthy of your attention.

Capricorn (Dec. 22-Jan. 19)

Accept the wisdom of the planets this month they're trying to teach you something. This is a time of awakening. You're pursuing a passionate path and reaching goals. It's exciting and terrifying, but it's possible to tackle your dreams. Life is about balance and achieving a middle ground, pursue your passion—fate's waiting.

Aquarius (Jan. 20-Feb. 18)

You've learned a great deal this month. Reflection is your middle name, if you got paid for every person you over analyzed, you'd have billions. Maybe you do. But, happiness isn't found across the room, or with a scalpel in your hand. Your capable of giving great depths of love and tenderness, don't miss out because you're too busy dissecting everyone.

Pisces (Feb. 19-March 20)

Guide to the stars WEEK OF Oct. 30 – Nov. 05

Pisces you're a sensitive soul. Many accuse you of being wishy-washy. You're a dreamer and natural philosopher. You're constantly amazed by beauty in the world, and the complexities of the soul. This is foreign to some. Reach towards the beauty of the stars, look through the window, but don't fall out in the process and break your neck.
