

**Look up this week! According to Earth Sky, you'll be able to see the five bright planets this month: Jupiter, Mars, Saturn, Mercury, and Venus. Jupiter will be visible shortly after dusk. Fortunately for us, Jupiter is the planet of luck. We'll share in its good fortune this week. Madame G suggests sharpening your intellectual tools — you'll need them soon — luckily, Jupiter is there to help. Good luck!**

### ***Aries*** (March 21-April 19)

Break time! You throw yourself into whatever your doing, from hardcore training to resting by the beach. Madame G applauds your abilities. But, have a little empathy for us mere mortals, not everyone moves at your pace. And they may not be on vacation. Try listening to a little Electronica this week — it's supposedly relaxing. Good fortune to you!

### ***Taurus*** (April 20-May 20)

You're entitled to think what you think and feel what you feel. Emotions are not black and white. It's definitely okay to say it's complicated. However, do yourself a favor and start "un-complicating" what you can. De-clutter the house and get rid of anything that's clearly trash. Madame G suggests listening to Avicii's song, "Ohh Sometimes I Get A Good Feeling" to set the mood. Enjoy!

### ***Gemini*** (May 21-June 20)

---

This week appears tougher than usual. Don't be afraid — it'll pass. You'll appreciate a little repast with the *Coming of Age* album by the artist Zimmer. You may even enjoy the song, "We Are Infinite." During times like these, remember, you create your own luck. Don't wait for anyone to guide you toward greatness. You got this!

### **Cancer** (June 21-July 22)

You just dodged a bullet. Don't rely on that kind of luck to protect you. In the future, use your good sense to get you through the day. You may need to get away from a few things, even if they're just fantasy. Get started by setting the mood. Hit play on Pandora and dream of the ocean. You may want to begin with Alina Baraz and Galimatias's album *Urban Flora*. Their hit single, "Fantasy," will help you get there. Have fun!

### **Leo** (July 23-Aug. 22)

You have many projects and very little time. You love it, except when you don't. Madame G suggests you take breaks when you need them. You can't help anyone, if you don't care for yourself. It may feel like you're letting everyone down, but you're not. If you need a little support, listen to "Don't let me down" by the Chainsmokers. This may alleviate the guilt, or force you to rest. Just breathe!

### **Virgo** (Aug. 23-Sept. 22)

You're busy and running around like crazy. You can do this. You're amazing! But you know that. Don't forget that while you're busy being amazing, it's important to take care of yourself. Eat right, rest, and exercise. Honor your physical body, your emotional self, and your spirit. Madame

G's album pick for you is: *One Day They'll Know* by Pretty Lights. Get your jam on and continue your journey. You've definitely got this!

### **Libra** (Sept. 23-Oct.22)

The stars are beautiful in the night sky, and you can't help but appreciate the world. Your spirit is lovely. You have an eye for catching the good and wonderful. Even if you miss out sometimes, you're still grateful. But you must take control and guide the ship of your journey or it will direct itself right into rocks. Madame G suggests listening to "Castle" by Halsey. You're going to conquer the world with a smile. Bon voyage!

### **Scorpio** (Oct. 23-Nov. 21)

Dear Scorpio, the world is not against you — it only feels that way. Your emotions are strong and powerful. There are few with your ability or strength, but you also feel the strain. Madame G suggests letting go. That built-up pain and aggression won't serve your bottom line. Relax. You're headed for a mental vacation. Enjoy a good laugh at your own expense by listening to "Crave You" by Flight Facilities. Live long and prosper!

### **Sagittarius** (Nov. 22-Dec. 21)

Life-altering changes are just around the corner. You may not be ready. But we're never really ready for change. The unknown doesn't scare you as much as failure. Remember, inaction can be just as bad, if not worse than making a so-called wrong decision. Chill out for a bit and get motivated by the artist GANZ's song "Light Years." Act now!

**Capricorn** (Dec. 22-Jan. 19)

You've a good heart. But your stubborn will leads to instability. What effect do you have on others? Are you hard on your family? Consider taking a step back. Your frustration and anxiety don't help. Listen to any type of music you enjoy, and drift away from anger. If you need a little push, try: "Livin' La Vida Loca" by Cold Play. Do no harm!

**Aquarius** (Jan. 20-Feb. 18)

You're ready for some luck, and you're in for it. Jupiter is the thoughtful and intellectual planet, and your friend. It's best to consider what actions will make your thoughts productive. Should you go back to school? Whatever the task is, just do it, because you're ready. Madame G sends Flume's "Warm Thoughts" your way. Enjoy!

**Pisces** (Feb. 19-March 20)

You may have a few extra burdens this month, but it's better to think of them as blessings. How often do you spend in new and challenging situations? If we don't learn, we rust. Bring yourself to a higher sphere than petty bickering, and don't join in when someone stoops to gossip. Madame G suggests you lay back and enjoy Porter Robinson's "Divinity." You'll relax for a minute and maybe get the strength for a new round. Do it!
