

***The Sun in Scorpio encourages deep reflection and emotions. This invigorates work and romantic relationships. Expect an awakening. However, the opposite is possible. Realization may hit that you really hate your job or SO. Madame G recommends caution. Remember what you learned from your grandmother: always be polite and offer guests a bite of food. Good luck!***

### **Aries** (March 21-April 19)

Resting? You may experience a very positive break that leads downhill for a time. While you rest, take time for self-reflection. In moments of quiet and solitude, we often learn more than we ever imagined possible — for better — and worse. Don't be such a judge. What you think isn't good or bad — it's the action you take that matters. Be free and live!

### **Taurus** (April 20-May 20)

Don't fall victim to the tried and true excuse: "But this is how it's always been done." Break free from that mindset and listen. You're not just a cog in a wheel. You're a human being with thoughts, feelings, and a soul. But we have a limited time for experience. Are you living yours? It's OK to want something new or better. And it's even better to dream. You can!

### **Gemini** (May 21-June 20)

Hello life, it's nice to meet you — my name is [     ]. How bold are you? What would you do if you knew that you couldn't fail? Adventure awaits not around the corner, but in your house, head, and life. Don't wait for the answer or meaning of existence to get happy. Take action now! Head out the door and smell the fresh air. You're doing just fine. You've got this!

### **Cancer** (June 21-July 22)

Head outside for a little R&R. You need health and happiness for the good life. If you have all the fancy things, but don't have health or friends — what do you have? Take the dogs for a walk and enjoy a fine dinner with your spouse. Smile. Life isn't perfect, but that would be boring. Be bold! Show the world your underbelly. We may surprise you, in a good way.

### **Leo** (July 23-Aug. 22)

Experiencing loss is all part of the circle of life. It's neither good or bad. We say goodbye to our loved ones, as they'll eventually say goodbye to us. Don't wait for death or a scare to get you in touch with your friends and family. Be part of family's life on a daily basis and show them love. Send your sister a text. Email an old college friend. Don't wait. The time is now.

### **Virgo** (Aug. 23-Sept. 22)

No one appreciates a know-it-all. Who likes hypocrites? Before you go around casting stones, no matter how well intentioned — stop. Don't just call when you need something or to issue orders. Your family appreciates calls out of the blue, and kindness. You might just make their day by saying hello. We're all human beings — you included. Be kind!

### **Libra** (Sept. 23-Oct.22)

Who doesn't appreciate a well-lived-in space? Nothing says freedom like being home. But it's part of nature to enjoy beauty as well. Consider making a few home repairs or fixing up your room in a way that suits your nature. Make it both functional and fashionable. You don't need to spend large amounts money for this project. Get creative and re-do your living room and then get working on your life. Find love or get a new job. You know what you need. Go!

### **Scorpio** (Oct. 23-Nov. 21)

Dear Scorpio, be patient. Take this time (patiently waiting) for reflection. Think about what you want carefully. Are you sure? Dig deep and don't be afraid of the truth. Once you set your mind on this course, you'll get there. Make time for all that you love and live your passion daily. You'll settle for nothing less, for nothing else will do. This is your life, live it!

### ***Sagittarius*** (Nov. 22-Dec. 21)

So this is love? Sometimes we make sacrifices for those who hurt us worse than others. But we often hurt them, too. Does it really matter who is right and wrong? This is your time for treating others according to the golden rule. If it works on strangers, then it really works for those we care about. Don't sacrifice your life for a meaningless moment. Think before you act.

### ***Capricorn*** (Dec. 22-Jan. 19)

Is your memory slipping? Don't worry, that doesn't necessarily mean you're old. It may mean you're tired. When was the last time you really rested? You only have a certain amount of energy in your daily life. Use yours wisely. Stop wasting time worrying about what other people do or think. Live your life in a productive way and it won't matter. Be you!

### ***Aquarius*** (Jan. 20-Feb. 18)

Don't panic! Nothing is worse than panicking and having someone yell — DON'T WORRY! You can worry if you want. But it won't do any good. Instead, try getting rid of that excess energy by heading out for a run or putting your head between your legs. Whatever works for you — that's what you should do. Madame G won't judge.

How do you process anger? Does pouting in a corner work for you? It might, but that's silly. In all likelihood, you're only hurting yourself. Revenge won't make you happier. Take a long hard look in the mirror. If you don't like what you see, then there's some work ahead. The only one who can fix it is you. That's a good thing. You've got this!
