

***Today the Moon is Void Of Course, but that's no excuse to ignore your New Year's Resolutions. If you've made new goals, see this as an opportunity to focus on one new change. Madame G recommends slow and consistent effort. Instead of making huge goals aim to be a good person, enjoy family, or feel rich. What's your bliss? Begin the search now. Enjoy!***

**Aries** (March 21-April 19)

Look towards the future. Don't get bogged down in pettiness. You really don't need to cry over spilled milk. You've a unique journey that no one else could accomplish, but it's up to you to find the path and live it. Consider taking college courses and learn a new skill. If that's not available, consider listening to business podcasts or visit the local library. Your future awaits!

**Taurus** (April 20-May 20)

Your life is a maze. Is a minitour waiting somewhere in the middle? If you feel, in danger or that your life is a tragedy—it might be time for change. Madame G suggests you begin slowly. Consider changing your behavior first. If you want to lose weight, you must first believe you can. Then take massive action. Is there a marathon in your future? You've totally got this!

**Gemini** (May 21-June 20)

Everyone you meet is a potential mentor, friend, lover, or enemy. That is the thrill, joy, and tragedy of life. Only you can determine where each person exists categorically. Only you can determine the course of your feelings. If someone doesn't value you—you must value yourself. Take charge of your emotions. Go on retreat and learn new coping skills. You'll be glad you did.

### **Cancer** (June 21-July 22)

If you're hiding in your house and too afraid to leave, consider taking action. Is your house livable? Maybe you're too attached to objects. You may want to read Marie Condo's bestselling book, *The Life Changing Magic of Tidying Up*. You can also watch her on YouTube. What makes you happy and what doesn't? Find your bliss. Good luck!

### **Leo** (July 23-Aug. 22)

You light up a room and bring happiness everywhere. You're living the life you want and if you're not—change it. This is an excellent opportunity to let go of objects that no longer serve. Remove old objects and bring in the new and let go of hoarding. Consider watching *Minimalism* on Netflix. Enjoy your life and share your wisdom. Bliss is possible!

### **Virgo** (Aug. 23-Sept. 22)

What's up? Maybe you're heading down the right path and maybe you're not, only you can tell. Whatever path you take it's important not to lose contact with friends and family. Remember that there are those in life who are there during the good times, but they're not there during the rough patches. Look out for the people who last. They're the ones you need in life. Do more with less.

### **Libra** (Sept. 23-Oct.22)

Do you believe in Karma? If you've been putting out bad energy you're going to get it back. Anger is understandable, but it's never okay to actively harm another. Consider finding your bliss. Take action and work on discovering your own happiness. You'll soon realize that when you work on your own happiness others follow. Show love! You'll feel better.

### **Scorpio** (Oct. 23-Nov. 21)

This is the year of massive action. Your life is an adventure just waiting for you. Take time and appreciate every aspect. What area of your life is neglected? Focus on one thing to change. Maybe you need a healthier lifestyle, more fun, or more time with the kids. Whatever the case write down your goals and get going. The time is now. There is no tomorrow. Do it NOW!

### ***Sagittarius*** (Nov. 22-Dec. 21)

Hello fellow traveler! Are you headed on a journey of the soul, mind, or body? Perhaps you're learning a new skill or participating in the lives of your children. Take time and discover what makes you happy and brings you joy. Show others through your actions what is the best way to live (your own way). You may want to read books on entrepreneurship and taking action. GO!

### ***Capricorn*** (Dec. 22-Jan. 19)

Is your life full of bliss and joy? If it doesn't take a long hard look in the mirror. You only have one person to blame for your unhappiness—it's you. No one is responsible for helping, caring, or taking care of you. If you haven't found it start looking. Read new books, listen to podcasts, or simply try a new experience. Try one new thing a week. You've got this!

### ***Aquarius*** (Jan. 20-Feb. 18)

Try anything new lately? If you haven't, consider making your home blissful. The Danish have an interesting practice called Hygee. It's the art of making your home cozy and wonderful in order to get through the rough winter months. If you find yourself in a funk or you've suddenly got writers block, make your house hygee. Clean out the junk and bring in the warmth. Have fun!

### ***Pisces*** (Feb. 19-March 20)

You may feel a bit lonely this year. Don't focus on being alone. What can you do in order to find your bliss? Maybe you're working on a book. Maybe you've finished. Pick a goal, one goal, and work on it all year long. Even if you forget about it until July, pick it up then and keep working. Whatever the case you'll be closer than you've ever been to a dream. Live big! You've got this!
