

Welcome to another look at some of the highlights arriving on 4K Ultra HD, Blu-ray and DVD. It's an odd week for new releases, consisting almost entirely of eccentric independent efforts. However, some may be fun and there are plenty of older titles receiving spiffy upgrades. So, if you can't make it out to the movies this week or need to stay indoors for a few days, be sure to check one of these titles out!

### BIG NEW RELEASES!

**CANDY LAND:** A young woman and devotee of a religious cult is regularly taken to a truck stop by her leader in order to help him convert local prostitutes into followers. After she gets on his bad side, the naïve woman is cast out from the cult. The ladies from the truck stop take her in, but insist that she work with them in order to pay for her room and board.

This independent feature first debuted on streaming sites last year and is now getting released on disc. More genre critics liked the movie than disliked it. About one-quarter of them hated the feature, stating that the characters and situation wasn't developed well and that the end result felt sleazy. However, the majority liked the cast and thought that the movie used grindhouse techniques to interestingly explore issues like prostitution and religious extremism.

The cast includes Olivia Luccardi, Sam Quartin, Eden Brolin, Owen Campbell, Virginia Rand and William Baldwin.
