As socialist democrats move us closer to socialism and many Americans are out of work, Congresswoman Torres-Small is silent and stays at home and continues to collect a paycheck. Why is she not traveling throughout the district and pressuring the governor to help New Mexicans get back to work? In return for her silence and votes, she has received over 3 million dollars including large campaign contributions from lobbyists and out of state billionaires who want to take away our freedoms and change America from the "Land of the Free" to "America, land of socialism and the deep state".

protect our citizens, but it is time for our governor to show common sense and let our rural counties begin reopening businesses in a safe and prudent manner. The government confiscated guns and citizens spied on their neighbors and lived in constant fear. Socialists want to suppress our love for God and control us with a big, over-reaching government. I stand with President Trump. I will never allow America to become a socialist country."
