Staff Reports

Due to ongoing repairs to the main water supply for Gallup — the Grandview water tank, which is a major 16-inch water main — on Sept. 15, the city of Gallup imposed the following water restrictions:

- Outdoor irrigation at city facilities is prohibited until further notice.
- Outdoor irrigation and outdoor water use by residents and commercial businesses is prohibited until further notice.
- The washing of automobiles, trucks, trailers, boats, airplanes, or other mobile equipment is prohibited, unless the washing of vehicles/mobile equipment is done at commercial car washes.

Gallup residents are also asked to conserve water by any reasonable means until further notice. The public will be notified when the restrictions are lifted.
