Lisa is the ED Coder and also works as a Patient Care Technician. Patient Care is her passion. She loves taking care of patients.

Many of the patients know her by name and feel comfortable when they see her in the ED. Lisa always has a smile on her face and is willing to assist in every department of the hospital.

She goes out of her way to put the needs of others before her own. She is one of the coordinators for the Breast Cancer Awareness Walk hosted by RMCHCS and enjoys volunteering in the community whenever needed.
