

**Enjoy a First Quarter Moon on Nov. 15. The Sun is in Scorpio till Nov. 22—Scorpio is the sign of “depth, intimacy, and extremes of feeling,” according to Café Astrology. The key phrase for this sign is “I desire.” Madame G recommends you take time to explore your feelings. Wanting to make a better life for yourself isn’t wrong, mistreating people is. Do no harm and be kind.**

### ***Aries*** (March 21-April 19)

Life is hard without your attitude getting in the way. Take a moment to reflect on your emotions. Are you angry or sad? Sometimes, this is a helpful distinction. When we address our fears and “trigger” points, we can address our desires. What do you truly want? When you stay focused on improving yourself instead of focusing on the negative, the universe lends a hand. Good luck!

### ***Taurus*** (April 20-May 20)

What do you want? As Kevin Ngo warns: “If you don’t make the time to work on creating the life you want, you’re eventually going to be forced to spend a lot of time dealing with a life you don’t want.”

### ***Gemini*** (May 21-June 20)

If at first you don’t succeed—give up? NO! Silly, that’s not the old adage — it’s “try, try, again.” However, you may reach a point when you have to ask yourself whether this is the right move or not. You may find it’s not always advantageous to keep pushing forward. Sometimes, you need to give up something you want for something you want more.

### ***Cancer*** (June 21-July 22)

Keep the faith and stay strong. You'll be okay; this too shall pass. Keep this in mind, from Karen Marie Moning: "It's funny how, when things seem the darkest, moments of beauty present themselves in the most unexpected places."

### **Leo** (July 23-Aug. 22)

Keep bringing a shining light to the world. The smile is a lost art. It has so many double-edged meanings. But it's also one of the only things that's free and easy to provide to strangers. You never know who you can help by sharing just a brief moment of kindness with someone. Don't hide it away — smile bright and light up the world.

### **Virgo** (Aug. 23-Sept. 22)

Keep working on yourself. Don't let up until you're satisfied with where you are in this life. Don't keep hiding from some unknown variable. You can do so much more than you ever realized. Be you and live the life of your dreams. You're beautiful and your soul is beautiful. Be strong little warrior, your heart is full of love for the world. You can!

### **Libra** (Sept. 23-Oct.22)

You've made some good decisions. Keep focusing on what you can do to make a better life for those around you and for those you care about. Perhaps the fight is almost at an end, get ready for another journey—it'll be a wild ride. Good luck.

### **Scorpio** (Oct. 23-Nov. 21)

Dear Scorpio, you're going to go deep into the heart of an issue this month. Is it about work? Not likely, it's probably closer to the heart of why you tick the way you do. Embrace the feelings.

It may hurt and burn like wicked heartburn, but it'll be worth the effort. Dig deep and cry your eyes out, break your heart and learn to really live. Be the fullest version of yourself you can be.

### ***Sagittarius*** (Nov. 22-Dec. 21)

Keep an open mind and stay aware of the many possibilities in life. Be yourself, but better. The wise Byron Katie put it like this: "Until the mind is open, the heart stays closed. The open mind is the key to the open heart." Be the open heart.

### ***Capricorn*** (Dec. 22-Jan. 19)

When you love something, let it go and be grateful for the impact it had on your life. Spend time doing the things you love and focusing on the positive things in life. Your life is meaningful because you're meaningful. Don't get caught up getting mad at everyone and everything. It's easy to lose focus during these trying times, but all times are hard. Who are you?

### ***Aquarius*** (Jan. 20-Feb. 18)

Live and let live. And don't forget to let you live, too. "Life is in different stages. Every stage of life is the foundation for the next stage of life. Every stage of live must be fully-lived," Laila Gifty Akita said. Be where you are, and let others be where they are.

### ***Pisces*** (Feb. 19-March 20)

Don't keep focusing on what you can't do. You may think you've done all there is and that you'll never get anywhere than where you are now — maybe that's even true. Is that so bad? Be proud of who you are and where you are. If you want a change, then go make one. But if you're actually happy where you are, why make yourself miserable trying to force a change?
