

The Frosty Full Moon occurs Nov. 12. According to folklore, beavers would finish their preparations for winter under the light of this moon. Madame G recommends you do the same. Take the time to put your house in order both physically and spiritually. This will mean different things for different people. Then enjoy the benefits of winter including hygge. (Pronounced: HYOO-g): a Danish and Norwegian word for a mood of coziness and comfortable conviviality with feelings of wellness and contentment.

Aries (March 21-April 19)

Focus on yourself Aries. Stop trying to control all situations and learn to accept the faults of others. Yours is not the only way to live. Do what is best for you and your family. Don't get caught up in petty squabbles and learn to forgive. The heart of the angry fool is not aspirational. Be more!

Taurus (April 20-May 20)

Don't give up on yourself or your friends. They need your level head and you need them. Would adding more soul to your goals keep you motivated? If you need clarity, this is a good time to hire a business coach or consultant to help you turn those creative visions into a workable plan.

Gemini (May 21-June 20)

Preparation is key. Put your head into the game and start finishing tasks as they come. Pick up after yourself and remember who you are. You can do anything you put your mind to and remember that you're capable of more than you think. Be your greatest self. Do what you can.

Cancer (June 21-July 22)

Madame G guide to the stars Week of novemBER 11

The only REAL danger is in not getting started. If you work slowly who cares? The point is to put your foot toward your goals and inch your way forward inch by bloody inch. It may take five minutes or five years, but the point is - you will get there. GO!

Leo (July 23-Aug. 22)

It's difficult to know what path to take. Your heart goes in many directions and you long for many paths. Your true heart belongs among many paths. It's not something foreign. It's within you. You're the other half of your soul. When you finally learn this, you'll experience peace and perhaps share this peace with others. Until then, live well.

Virgo (Aug. 23-Sept. 22)

It's never too late to try again, but be sure you're trying for the right reasons. Don't keep pushing toward some unknown entity because you're too stubborn to quit. Take a break and breathe through the misgivings of your mind. This world is open to possibilities, if you keep trying to be your best self you will accomplish more. Good luck!

Libra (Sept. 23-Oct.22)

This is the world of the future. There is no other time but now. Stop looking to an unknown world to be perfect. Enjoy what you have. Live, laugh, and love! That's all you really need to know. Take some quality time for yourself. Start with nourishing your body.

Scorpio (Oct. 23-Nov. 21)

Your heart is caring and generous. You've done so much for those around you. You're loved. Don't worry about failure. No one is watching or waiting for you to fail and if they are they're no concern of yours. Most people are ready and willing to celebrate your work and life. The rest don't matter.

Sagittarius (Nov. 22-Dec. 21)

You might find yourself at the end of a very long road this week. Try not to get too confident, you aren't home yet. The end of a challenge or project can always be the most draining and rewarding. It would serve you well to rest and remain positive. When one road ends, another one begins.

Capricorn (Dec. 22-Jan. 19)

Life doesn't get easier. You gain experience to navigate the waters. Don't give up on yourself. Do you need more discipline? You don't need to go it alone. Look for someone in your community with this trait and model it. They won't be perfect, but neither are you.

Aquarius (Jan. 20-Feb. 18)

Remember the only real fear is fear itself. Do your best, you've got this. There is a happy medium between showing up for others and self-care. And your innovative sign understands better than most that you can have fun while also being productive. Be sure to leave big gaps in your schedule for spontaneity.

Pisces (Feb. 19-March 20)

If you inexplicably feel drained in someone's presence or guilty, or obligated for a reason you can't explain, trust yourself and give yourself protection and space. This person or situation could be stealing your energy. Don't try to satisfy this person or rectify the situation. Take care of yourself.
