**Aries** (March 21-April 19)

Your challenge is learning the difference between articulating your feelings and over-sharing. It's a tactic in negotiations to overwhelm the competition with information, but this tactic usually works only once. Do not make rash decisions at this time.

**Taurus** (April 20-May 20)

Work has been tearing you down a bit and your relationships are deteriorating. Accept that not everyone will accept you and that's okay. You can only live for someone else for so long. This is not a time for compromising or experimenting with things that can send you off on tangents. Stay with your vision.

**Gemini** (May 21-June 20)

Your love life is looking up. Your challenge: don't put up with more than you should. It's not quitting when you're looking out for the needs of children and yourself. Ask the important questions. Make sure you and your sweetie are headed in the same direction. Suffering isn't a virtue.

**Cancer** (June 21-July 22)

---

You're good, but at times other people are better. Learn to work with others effectively. Believe it or not this is good. You don't have to do everything by yourself. You'll be glad you shared the burden - it's rewarding. During this cycle, you'll do profound creative work.

### **Leo** (July 23-Aug. 22)

What a difference a day makes. You're capable of withstanding the storm. The proper people have noticed. You've won. Take the lead in being more helpful and cooperative. Think in terms of co-creating. Be willing to listen to others without judgment.

### **Virgo** (Aug. 23-Sept. 22)

Everyone is vying for your attention. Your challenge is to accept these opportunities and expand your horizons. Show no fear Virgo. You have the experience, talent, and drive to take on the world. It's up to you to stand on your own two feet and run. Madame G foresees great things in your future.

### **Libra** (Sept. 23-Oct.22)

Aquarius is a fellow air sign, but unlike you, Aquarius is fixed. This means Aquarians make informed decisions. You are pro-active. So, even while you are excited and feeling like experimenting, keep some balance in your communications.

### **Scorpio** (Oct. 23-Nov. 21)

The theme for you this year is money. You'll make it and save it. Plan ahead! Your challenge: slow down and listen. Try to have patience for those with a seeming lack of talent and energy. Remember not everyone is as cool as you. Don't be mean. Show respect.

### ***Sagittarius*** (Nov. 22-Dec. 21)

You're a tough cookie and you know it. The ones you love have incredible influence over you. Your challenge is taking care of yourself while protecting loved ones. This is no easy task and yet it's necessary for a healthy life. Sometimes you're self-destructive. Think before you act.

### ***Capricorn*** (Dec. 22-Jan. 19)

Your global debut is near. You're due for some accolades. Just remember to show up for your own award show. Look to collaborations instead of trying to earn every penny by the sweat of your brow. You may find a way to monetize something you've been offering people for free, like your sage wisdom, or something that everyone's always borrowing from you.

### ***Aquarius*** (Jan. 20-Feb. 18)

Show the world your positive traits. Your challenge: forgive yourself. You've already calculated innovative ways to help and alleviate the problem. Now is your time to invest in personal development work to reinvent or rebrand yourself and take yourself where you want to go.

### ***Pisces*** (Feb. 19-March 20)

You're determined. Good things come to those who wait. This year requires patience. This time is more about releasing the past than rushing into anything new. Are you still hanging on to some baggage? Begin moving these things out of your life. You'll get where you're going, but don't burn out before you get there.
