

Happy Valentines Day! To the happy lovers out there, may you have many blessed returns. Enjoy each other and remember that forgiveness and kindness will never be overrated. To those who are not in a romantic relationship, congratulations. Focus on yourself and spread a little warmth and kindness to those around you. Embody compassion and love and be kind to yourself.

Aries (March 21-April 19)

Good luck Aries! You have a penchant for drama and you're often driven to what is novel and fun. However, in the pursuit of those entertainments you may have left behind something of real value. Don't lose a fortune for a pebble or you may experience the greatest pain of all, regret.

Taurus (April 20-May 20)

Love your friends and take care of yourself. If you break down, the entire unit falls apart. If you haven't taken a proper vacation in a while, get one on the books! If you can't get away now, take a virtual trip. Be well!

Gemini (May 21-June 20)

Communication may feel disrupted right around Feb. 15. Don't panic, this is just part of the game. In order to push your projects forward, it's a good idea to whip out the baked goods. Bribe your team with goodies and push the conflict toward the back. They'll soon make up over sugar and butter. Do whatever works.

Cancer (June 21-July 22)

Got love on the brain? Maybe it's a love for children, the world or the expansive Universe.

Whatever the case, do what you can and share with others. You have a gift that cannot be ignored. Love others as yourself and experience growth. Also, when you're advocating for yourself, be sure to emphasize the benefits to the other party.

Leo (July 23-Aug. 22)

It's good to love your hobbies. It's even better to share them with a friend. Yes, the furry friends count as well. Don't worry, we won't tell everyone how much you spoil them. It's our little secret... Your generosity is one of your most wonderful qualities, Leo, but give with a full heart.

Virgo (Aug. 23-Sept. 22)

You got this! Whatever is holding you back says more about them than about you. You can do whatever your heart desires. You're more than your circumstances. You're more than your worries. These next six weeks are go time! Whatever your obvious next step is, take it! Your efforts will be rewarded.

Libra (Sept. 23-Oct.22)

Beauty is all around you and you should enjoy it. You don't have to buy the most expensive gift to let someone know you love them. Sometimes listening to someone you care about without judgment is all that's important. Do you best and love yourself. The pathway to the shift you desire is through the heart, not the head.

Scorpio (Oct. 23-Nov. 21)

Romantic love is not always the answer. It's a beautiful idea, but fairytales don't finish the sentence. It's the end...of the story, not the end of life. You may find love with a pet, a friend, or an idea. Learn to balance the needs of the body, heart, soul, and mind and you'll experience peace.

Sagittarius (Nov. 22-Dec. 21)

Your heaven is an ice-cold beer with your favorite game on, or a show. For you, life is like a dream. Sometimes you must wake up and it's a nightmare. Get up and move around. Sitting on the couch all day is NOT healthy. If you're bored, then find something new to do because only the boring are bored. Live it up!

Capricorn (Dec. 22-Jan. 19)

Your demands are not being taken seriously and there's a good reason for that. Unless you're a general or royalty, demands won't get you very far especially with family. They love you. Let go of your animosity and breathe in the fresh air. Over these next six weeks, put yourself first and focus on self-development.

Aquarius (Jan. 20-Feb. 18)

Your love of learning new things is legendary. Sometimes you're just like a bloodhound on the scent of a new adventure. You're also relentless. You may face opposition and challenges and Madame G salutes your fortitude. Remember the long game and don't get caught up in any petty squabbles.

Pisces (Feb. 19-March 20)

You're searching deep within yourself for the meaning of life and you're coming up short. It's important to nurture your spiritual development. You can't always go outside yourself for help. Lean on a friend, church, or spiritual practice to get you through and use the momentum to push yourself forward.
