

We benefit from the Sun in Pisces until March 19th. This mutable sign offers insight into the emotions of generosity and empathy. Buyer beware, you may also find an increase in self-pity and feelings of victimization. Madame G wishes you well. Learn to examine emotions as part of you, but not as you. Feelings aren't facts. Consider how you influence the energy of others.

Aries (March 21-April 19)

Dear Aries, the Sun is almost under your sign. Until then you must endure the emotional "touchy- feely" warmth of water. Your more fire-like nature may reject this yin-like quality, but it's exactly what you need. Every creature has elements of yin and yang, even you. What I'm saying, Aries, get in touch with your feminine side. Treat yourself to something wonderful for fun.

Taurus (April 20-May 20)

You're an earthy creature, with sensitive and sensual elements, thanks in part to Venus - you're ruling planet. You welcome Pisces tender feelings, even though you don't show emotional drama in the same way. You nonetheless feel deeply. You have a friend in Pisces, dear Taurus. But, keep those boundaries healthy and give yourself plenty of time alone for self-care.

Gemini (May 21-June 20)

Gemini's don't get enough credit. You're often whimsical, but also sympathetic and adaptable, which is good. It's often overlooked that a great deal of intelligence is required to shift plans mid-way through a project or on the fly. This requires dexterity, poise, and good nature. So the next time someone points out your flaws remember, they have good qualities, too.

Cancer (June 21-July 22)

With heavy doses of wanderlust now in your system, you only have one thing left to do: figure out where you want to go. Book with reputable sources and leave lots of room for spontaneity.

Leo (July 23-Aug. 22)

It's an exciting time. You have so many new projects happening. You know you can trust your designs. You've taken the best parts of Pisces and will harness those creative depths. Put your energy into making something that looks as good as it feels.

Virgo (Aug. 23-Sept. 22)

Be bold, dear Virgo, don't give up! Now is the time to accept how you feel and keep moving forward. Shared projects give you opportunities to bond in the pragmatic, proactive way you love. You've got this.

Libra (Sept. 23-Oct.22)

Your air sign appreciates the more refined feelings. But that doesn't mean you don't appreciate having some sloppy crying time with a bottle of wine and your beasties! Have fun!

Scorpio (Oct. 23-Nov. 21)

Your fellow water sign has a strong presence. As a fixed water sign, your still waters run deep, very deep. Sentimental feelings or surface emotions have their place, too. In fact, you may know a few people who would benefit from hearing you say "I love you!"

Sagittarius (Nov. 22-Dec. 21)

You have a lot to learn dear Sagittarius. Don't lose yourself in this next step. Take a moment to evaluate your options and reflect on the benefits of emotional boundaries. Sometimes you may need to listen to the heart, but other times you need a wise head. And some decisions are neutral.

Capricorn (Dec. 22-Jan. 19)

Dear Capricorn, do your best. It's not over till it's over. You have more opportunity than you think. When Mercury corrects course, new potential partners may come out of the woodwork. You might even meet one of them this Sunday, during the Pisces new moon. Take a couple weeks (at least) to check out their background.

Aquarius (Jan. 20-Feb. 18)

Don't confuse emotion with the idea of emotion. You're capable of feeling deeply and this often terrifies your airy nature. It shouldn't. An emotion is merely the mind's reaction to a physical experience. You're capable of having all three and one is not greater than the other. Learn to appreciate what is good in all three and master all of them.

Pisces (Feb. 19-March 20)

Enjoy the energy of this time and experience, dear Pisces. There is much to learn, and you have plenty of time. Don't lose yourself in those jarring emotions. Accept yourself for who you are and know that you are loved.
