AGNES: A disaffected priest is assigned by superiors to investigate a claim of demonic possession at a religious convent.

After arriving with a pupil, the two look into the matter and the nun who many feel is being controlled by a sinister force. They discover plenty of strange things occurring on site and ultimately find themselves dealing with a crisis of faith after being confronted by temptation.

This independent horror flick has received more positive notices than negative ones. About one third of reviewers called it poorly structured, silly and said they didn't think it delivered the necessary shocks. Still, the majority thought it was an interesting and compelling exorcism movie that blended genres effectively and stood out as a unique effort.

The cast includes Molly C. Quinn, Jake Horowitz, Sean Gunn, Chris Browning and Hayley McFarland.

AMERICAN SIEGE: This direct-to-disc action picture (that is also available on streaming platforms) involves an aging sheriff in a Georgia small town catering to the upper classes.

Three outlaws suddenly appear and take a prominent member of the community hostage. The mayor calls the protagonist and hassles him to find and eliminate the criminals before the FBI arrives. Beginning to suspect that his superiors are equally crooked, the hero must square off against bad guys from all sides.

This effort was universally panned by critics. The best reviews stated that the movie was bland, but that the star of the picture had been in worse films this year. Others wrote that the lead actor deserved much better and described the script and filmmaking as embarrassing.

Bruce Willis, Rob Gough, Timothy V. Murphy, Johann Urb, Anna Hindman and Trevor Gretzky headline the picture.
