

Welcome to another look at highlights arriving on 4K Ultra HD, Blu-ray and DVD. It's an extremely busy edition, with several notable releases and plenty of older titles coming your way. So, if you can't make it out to the movies this week or need to stay indoors for a little while, be sure to give one of these titles a try!

### BIG NEW RELEASES!

**ASTRAKAN:** In this foreign-language drama from France, a young orphan is adopted by a foster family. Drama follows as he struggles to fit in at his new home. After beginning to feel a sense of belonging and happiness, he goes through coming-of-age trials and also discovers an unexpected and hidden secret about his new parents.

The press adored this feature and every reviewer who saw the picture recommended it. They commented that while some might find the storytelling difficult to digest, the movie was unlike any tale they had seen about a youngster becoming an adult. They praised the performances and the authenticity of the story and believed that it also lacked any melodrama or sentimentalism.

The cast includes Mirko Giannini, Jehnny Beth, Bastien Bouillon, Theo Costa-Marini and Paul Blain.
