Welcome to another look at some of the highlights arriving on 4K Ultra HD, Blu-ray and DVD. Next week is incredibly busy with several big titles, while this edition features some curious independent efforts that may be of interest. So, if you can't make it out to the movies this week or need to stay indoors for a while, be sure to give one of these titles a try!

BIG NEW RELEASES!

BOBCAT MORETTI: This independent feature involves an obese man who is diagnosed with multiple sclerosis. He decides to get healthy to try and combat the condition, taking up boxing, a sport his late father participated in. A trainer at his local gym decides to help and get him on the right path, helping the lead lose over 150 pounds and start to regain confidence in himself.

This independent drama was seen by a handful of critics who were generally positive about the results. One or two thought that while well-intentioned, the movie was awkwardly put together and didn't make a lasting impression. However, everyone also called it sweet and inspiring, stating that there were plenty of fun surprises in the storytelling.

For the time being this is a DVD-only release. It stars Tim Realbuto, Vivica A. Fox, Taryn Manning, Coolio and Sally Kirkland.
